

Did you know?

In 2005, almost 5 million people worldwide were infected with HIV;
that's 10 people per minute.

Talk to your friends. Encourage them to purchase an Empowerment Tag –
It's time to See, Hear and Speak about HIV/AIDS.

Without a cure, education and prevention are the most effective ways to stop the spread of HIV :

Half of all new HIV infections are among people aged 15-24

A new HIV infection occurs every six seconds

One child dies every minute from AIDS

By purchasing the Empowerment Tags, you are making a difference!

Proceeds from tag sales help fund YouthAIDS HIV-prevention initiatives such as:

Voluntary Counseling Centers

Testing Clinics

The development of tools for HIV prevention

With 100% of the net proceeds from the empowerment tag sales benefit YouthAIDS programs worldwide, the number of lives we are helping to protect increases with the purchases of every tag.
